1. Closed Class Permits: (Over Class Capacity Seat Releases) See the Chair or director of the department in which the course is offered.

2. English: All students must complete two English composition courses (6 credits) with a grade of C or better in both courses.

3. Mathematics: All students must complete 6 credits of mathematics with a grade of C or better in at least one course.

4. Computer Competence: All students must complete 3 credit hours in computer science.

5. Natural Science Perspective: All students must take two natural science courses with laboratories or two sequential courses in natural science, the first of which has a laboratory.

6. Behavioral/Social Science Perspective: Under the Behavioral/Social Science area, students are required to complete 3 credit hours of coursework chosen from among CJ, COMM 205, EC, GEOG, INST, LSOC, POSC, PSY, SO, SW.

7. Historical Perspective: All students are required to complete 3 credit hours in history.

8. Cultural Studies Perspective: All students must complete one course in CUL before graduation.

9. Ethical Perspective: All students are required to complete 3 credit hours in philosophy (PH), excluding PH 110 and PH 204.

10. Aesthetic Perspective: All students must take a course in the arts (appreciation, history or practice). These courses include ART, FILM, MUS, and THTR.

11. Integrated Liberal and Professional Perspective: All students must complete one ILP course. The integrated liberal and professional perspective makes clear the connection between the goals of liberal and professional education.

12. Learning Beyond the Classroom: All students must fulfill two different LBC experiences, one for every two years of full-time study (LBC 2XX, LBC 4XX).

13. Repeating Courses: Any student who wishes to repeat a course in which a grade of less than C was earned should complete a form for SAS.

14. Independent Study: A student must make arrangements for an independent study prior to registration and complete a form from the Dean's office. The form must be signed by the faculty member who is directing the study, the faculty member’s department chair, the student's advisor, and by the student. Students with grade point averages of 3.0 or better, overall or in the major, may take up to 6 credits in their junior/senior years.

15. Internships: A student wanting to take an internship must make arrangements with the Career Center prior to registration. An internship application must be completed and signed by the student, the academic advisor, the department chair, and the internship coordinator. A student may take a total of 6 credits in the junior/senior years and must have a minimum grade point average of 2.5 overall and in the major, except where an internship is required in the major or with special permission of the Assistant Dean.

**GENERAL EDUCATION REQUIREMENT** – All students must have a grade of “C” or better in two courses in English Writing (ENGL 132-133 or equivalent). Mathematical Analysis (MATH 133 & MATH 134) a minimum grade of C- is required in MATH 133 to take MATH 134. In addition, a minimum grade of C- is required in MATH 134 and an average of C or better is required in MATH 133 & MATH 134 to take ME 202, BME 201, CEE 251, or EE 205. Please consult University Catalogue for additional General Education Requirements.

**FREE or GENERAL ELECTIVE** – Any course offered at Western New England University (a lower level course in a subject area that the student has successfully completed upper level work is NOT ALLOWED).

**ENGINEERING SCIENCE/TECHNICAL ELECTIVE** – Any Upper Level Math, Science, or Engineering course (normally numbered 300 or above), or any other course approved by the appropriate Engineering Department.

#### DESIGN ELECTIVES

**Mechanical Engineering Department**
- ME 318 Design of Solar Energy Systems
- ME 437 Design Projects
- ME 445 Design Alternative Energy Systems
- ME 447 Fundamentals of Flight
- ME 449 Computer Aided Engineering
- ME 492 Spray Theory & Applications

**Industrial Engineering & Engineering Management Department**
- IE 334 Computer Simulation & Design
- IE 429 Design & Analysis of Experiments

**Electrical & Computer Engineering Department**
- EE 414 Microwave Engineering
- EE 423 Electronic Communication I
- EE 437 Design Projects
- EE 470 Computer Control Systems
- CPE 360 Microprocessor System/Design
